TOWN SCHOOL BOARD

DISCUSSES COAL QUESTION High Prices And Little Prospect of Getting It in Quantity.

The town school board met Friday vening in the superintendent's office in the town hall and disucssed mat-ters of importance. Among the mat-ters under discussion were the repairs which will be made during the sum-mer vacation. Another matter brought before the board at the meeting was the congested conditions of the schools in the West Side district, especially that of the Thamesville school. The condition here will be worse next year instead of better owing to the opening of the Winchester Woolen Co., which will necessarily bring many familles to the city. Several ways of overcoming the difficulty were discussed but nothing definite decided. The Several ways of

SPINAL MENINGITIS AT CAMP DEWEY fantile Paralysis.

For the past few days there has

Dr. Fox placed strict quarantine on the camp which includes several cot-ages occupied by Norwich people. No one will be allowed to occupy these cottages for the coming two weeks.

The two cases are now in the Memorial hospital in New London. It is believed by the health authorities that with strict quarantine regulations there will be no cases outside the camp. At present in the camp is a total of 160 boys who come from Texas where this disease has been FOR SUMMER ACTIVITIES. Prevalent.
The health officer desires that the public understand that there is no connection between infantile paralysis and cerebro-spinal meningitis as they

are two separate and distinct diseases.

Many people in this city have been more or less upset because two of the boys from Camp Dewey have been purchasing supplies here, taking them to the camp at Kitemaug. Investigation, however, shows that from the gation, however, shows that from the Davis theatre .......118.15 time of the first appearance of the ill-ness these boys have been isolated from the main camp in order that they might be able to leave rounds and not carry any inspection. This isolation will be continued as long as it is thought necessary. Furthermore orders have been issued to prohibit anyone in the camp from using the water from the well which supplies the cottens at Michen with the cottens at supplies the cottages at Kitemaug.

Norwich has always been found

Norwich has always been found equal to any task undertaken. With this in mind the chalrman reports that the United States Finishing company has contributed \$1,000 toward the fund.

The Norwich Equal Franchise league contributed \$565, and the treasurer of the last Fourth of July committee, which had in hand the funds remaining from the big preparedness paing from the big preparedness pa-rade and celebration in this city turn-ed over the balance which had been ed over the balance which had been accumulating interest in a savings bank. The amount was \$204.48. It was felt by the committee which had charge of the money that the object was especially worthy of the money and without hesitation it was turned over to the Red Cross.

Concerning the Red Cross Major General John J. Pershing says:

"I believe in the Red Cross, for I have observed it in operation. During the last week of last November I received a letter from Washington headquarters, asking me to list the things that were needed by United States soldiers in Mexico.

States soldiers in Mexico.

T think I spent two or three days thinking up that list. I remember that I named tobacco, pipes, pocket knives, bandana handkerchiefs, needles and candy—not anything fancy, but the good, oldtime stick candy. Also jams and marmalade. I prescribed little jars of marmalade.

"Well, sir, do you know that my suggestions were adopted literally? Each man in my command received a complete to bag from the Red Cross for fort bag from the Red Cross for Christmas, and each bag contained ex-actly the articles named in the list. "Therefore I am for the Red Cross. I know it is capable of great good because it accomplished great good in my command in Mexico. From the bottom of my heart the people will support it."

And in a letter to the Red Cross. And in a letter to the Red Cross headquarters in Washington he adds: It would be a difficult task to convey to you the heartfelt appreciation of the officers and men of this command for the most generous showed of

presents that are pouring in on every truck train. There will be ample and to spare for all purposes. Each station will get its share according to its numbers. Everybody has felt the inspiration of your active interest and each camp is trying to out-do the others. Here at headquarters, we are having a mammoth tree built up of seven of the largest we could haul. The result will be a tree seventy feet high. We shall all assemble arour this tree on Christmes and sing some carols and offer a prayer, and then distribute to the matter of changing some of the by-laws of the lodge. STORRS CONTEST.

Hens Have Now Laid More Than 100,000 Eggs.

The hens in the egg contest at Storrs have now laid a grand total of more than 100,000 eggs. This mark was reached in the 33d week of the competition, or at almost exactly the same time that this point was reached last year. The hens in the present contest are just a little more than half a day behind the record of a year ago. Apparently this discrepancy cannot last long, as all pens taken together laid 4,450 eggs in the 32d week, or a gain of nearly 200 as compared with the corresponding week last year.

Albert T. Lenzen's White Rocks from North Attleboro, Mass., and four pens

North Attleboro, Mass., and four pens of White Leghorns entered by P. G. Platt, Wallingford, Pa., Frank R. Han-

cock, Jacksonville, Vt., and Windsweep arm, Redding Ridge, Conn., two pens, all tied for first place with 59 eggs each. Michigan Poultry arm's Barred Rocks from Lansing won second honors for the week with a yield of 58 eggs. Eglantine Farm's White Leghorns from Greensboro, Md., were third with a yield of 57, and four additional pens of White Leghorns, entered by Jay H. Ernisse, Webster, N. Y., Ciffford I. Stoddard, Woodbridge, Conn., George H. Stannard, Ottawa, Kas, and Conyers Farm, Greenwich, Conn., all tied for fourth with 56 eggs each.

Attention is again invited to the fact that the season for weeding out non-Michigan Poultry arm's Barred that the season for weeding out non-producers is now at hand. Intelligen culling works a twofold advantage: i reduces the grain bill and at the same time has the effect of raising the av-erage yield per hen. During July there erage yield per hen. During July there is no doubt but that in many flocks from 5 to 10 per cent. of the birds can be culled without adversely affecting the egg yield. This means, of course, a little less money for grain, a little less money for grain, a little less abor, a little more room in the houses during the summer, and yet the same number of eggs.

Favor of Claimant. In the case of Edward N. LaBonte of llows: Columbia against William H. Segar of Willimantic, Compensation Commissioner J. J. Donohue has announced his finding and award.

COMPENSATION FINDING

Commissioner Donohue Decides Case in

A claim for compensation for an in-365.00 jury received by the callmant on March 114.00 15, 1917, was made against Louis B. 21.00 Whitcomb of Andover, and no agree-477.50 ment having been reached a hearing was held on May 28, at which time Mr. 341.48 Whitcomb appeared with the attorney for the Travelers Insurance company, 121.00 John G. Raas. At this hearing it was 17.50 found that Edward N. LaBoate was not in the employ of said Louis B. Whitcomb at the time of his injuys. \$2769.48 \$421.15 \$3,190.63 and therefore claimant requested a hearing later that the facts might be found any task undertaken. With mind the chairman reports United States Finishing com-

June 18 as above stated.

The injury consisting of a cut just above the ankle caused by a tie pick striking him in the leg. LaBonte was engaged at the time with other men in loading tie into a car at the Hop River depot. Said injury caused a disability extending to May 1.

At the hearing on May 28 it was found that LaBonte was not in the employ of Mr. Whitcomb on March 18 and that no award could be made against him and no finding was filed pending subsequent hearing, at which pending subsequent hearing, at which time the party might be heard against whom LaBonte should have made his claim. It was found that the average weekly wages of the claimant were \$15. It was found that when Mr. Whitcomb wished to set up a sawmill, in order to hasten the work, "he had loaned several of Mr. Segar's men." and that LaBonte had assisted with this work for three days and then re-turned to Mr. Segar's direct employ-ment again and that on such occasions Mr. Whitcomb had paid Mr. Segar for the men and Mr. Segar had settled

with the men.
In view of the testimony of the various witnesses, while that of the em-ployers was slightly contradictory, in the main the facts admitted were substantially the same, and I find that Segar was the employer of LaBonte at the time of his injury, as on every oc-casion on which LaBonte had worked for Whitcomb, even though he was on the payroll of Segar, he (LaBonte) had received his pay directly from Segar except on this one occasion, and if he had not been injured LaBonts would have looked to Segar for his day's pay for the work done on the day of March 16, 1917, and undoubtedly from the testimony he would have received it from Segar, but a difference of opinion arose between Whitcomb and Segar with the result that LaBonte, being ni need of money and Whitcomb seeing his circumstances and knowing that it had to be paid either to Segar or La-Bonte (but properly should have been paid to LaBonte through Segar), gave the money to LaBonte which he knew was due him. It was entirely a question of a loaned employe, and in view of the facts as presented it was found that LaBonte was in the employ of Segar on the day of his injury and that he should have looked to him in the first place for compensation. Commissioner Donohue has ordered the respondents to pay to the claimant the sum of \$37.50, together with the medical, surgical and hospital ser-
